

NEW ARRIVAL

Create your own storage systems

Join Box

we found that the drawer on the market is mainly based on wardrobes, with a depth of more than 40cm.

In addition to wardrobes, there are many shallow cabinets at home, such as bookcases, wall shelves, etc., with a depth of only 25 to 30cm.

Therefore, we control the length of the drawers to 20 cm, making them suitable for use on desks, bookcases and wall shelves.

The advantage of modularity is that users can expand it according to their needs.

Stackable and Fixed

Suitable Length (25cm)

Cleanable

Use Case

Bookcase :

You can use the Join Box series to organize the space in the bookcases and keep them organized.

Desktop :

On the desk, in addition to storing electronic accessories, the Join box can even be used as a headphone stand.

Cosmetic :

The Join Box can be expanded to store cosmetics and skin care products as supplies increase.

Create your own dream space

Vanity Desk

According to research, students start wearing makeup as early as elementary school, which shows that having their own makeup space is every female's dream. However, as the number of cosmetics increases, storage becomes relatively important.

Makeup Organizer

Today's cosmetics storage is arranged from front to back, and when accessing items in the rear, they are always blocked by items in the front.

Therefore, we redesigned the Makeup Organizer, changed the arrangement from left to right, and gave it an angle to make it easier to find and take it!

Modular Drawer

Create your own storage system

- Combo Box -
- Join Box -

Combo Box

we modularized the drawer storage box by design. You can combine and match according to your own needs. Whether it is a long drawer or a small drawer, you can move it at will, or even remove it completely to use as an open storage layer.

Compared with other drawers, Combo box adds customized functions.

Video

Advantage

Modularity :

Allow users to have as many drawers as they want.

Versatility :

Applicable to multiple fields, users can expand it as their needs increase.

Decorative :

Storage at home is not only about function and capacity, decoration is also important.

Stacking fixed design to prevent falling.
