CARE

Do you know you have started to use a small crayon since you were five? Do you know there could be more than 20 kinds of different stationeries helping you when you are in work? Do you know you may spend 8 hours a day, 2,100 hours a year, which is 121,800 hours in your lifetime for sitting in front of your desk? Or even more!

We know it. Because we do care about it! We care if the children have their painting tools that are safe and free from any harmful material. We care that even just a 10-degree difference of the angle from monitor to your eyes can prevent you from an unknown headache after you call the day off and go home. We even care that stationery should not be just a normal work accessory to you. It should bring you comfort, convenience and commitment to a better life style.

The only thing we want to see from you is your smile of satisfaction. We are all ready to present our best products and service. If you are also ready to turn your life to the great & new direction, please just turn the page on. We may surprise you with our amazing items. But you will surprise yourself more by how wonderful life could be when you make this decision!

Join Box

we found that the drawer on the market is mainly based on wardrobes, with a depth of more than 40cm.

In addition to wardrobes, there are many shallow cabinets at home, such as bookcases, wall shelves, etc., with a depth of only 25 to 30cm.

Therefore, we control the length of the drawers to 20 cm, making them suitable for use on desks, bookcases and wall shelves.

The advantage of modularity is that users can expand it according to their needs.

Create your own dream space

Vanity Desk

According to research, students start wearing makeup as early as elementary school, which shows that having their own makeup space is every female's dream. However, as the number of cosmetics increases, storage becomes relatively important.

Makeup Organizer

Today's cosmetics storage is arranged from front to back, and when accessing items in the rear, they are always blocked by items in the front.

Therefore, we redesigned the Makeup Organizer, changed the arrangement from left to right, and gave it an angle to make it easier to find and take it!

Vertical Laptop Stand

Storage & colling in one

When using a laptop, one of the biggest challenges is limited desk space, making it difficult to store and manage overheating issues. To address this problem, we have designed a new Vertical Laptop Stand.

The TS-005 stands out from other laptop stands on the market because typical laptop stands can not simultaneously provide both storage and cooling functions. However, the TS-005 achieves this.
